

NOTICE OF POSITION AVAILABLE

Full-Time Permanent Licensed Avionics Technician

Conair is Canada's most experienced specialty aircraft operations provider, delivering a comprehensive range of aerial fire control products and services to a variety of national and international customers and partners. Our long-standing reputation for providing service excellence makes us an industry leader.

People define Conair and we currently have an opening for a full time permanent Licensed Avionics Technician position.

Reporting to Crew Leader, Lead Hand and or department supervisors, an AME-E will work with a minimum of supervision on Conair aircraft fleet and production projects as assigned. The AME-E will be expected to accept field assignments as required to support fleet aircraft.

In this role your duties will include the following:

- Assisting with the maintenance of Conair fleet aircraft and production projects as assigned;
- Completing maintenance and paper work on operational aircraft during operating season;
- Fostering a strong working relationship with Customers, Pilots and Crew;
- Adhering to Conair safety regulation, policies and procedures while performing their duties;
- Completing assigned tasks and related paperwork work in a timely and accurate manner;
- Directing and supervising work crews in the position of Lead Hand as applicable to their training and expertise;
- Working within a team environment assisting and or directing fellow employees in the performance of their duties in a Professionals and courteous manner;
- Maintaining currency as applicable to Conair Maintenance Bulletins and notices;
- Knowledge of CARS regulations as related to aircraft maintenance;
- Understanding the flow and processes involved in the information technologies;
- Support Engineering as required for avionics modification drawings and engineering orders.

We are looking for someone with:

- Thorough knowledge of safety rules and regulations governing the work performed;
- Thorough knowledge of aircraft parts and theory of avionics systems;
- Ability to communicate openly with customers and other employees while working in restricted base environment;
- Ability to maintain stamina during busy periods and ability to be self-motivated while on base;
- Skill in working independently, providing guidance to junior Aircraft Maintenance Engineers and making process decisions where necessary;
- Skill in working effectively with mechanical tools and equipment;
- Thorough knowledge of avionics test equipment use and calibration procedures.

Training/Education:

- Grade 12;
- Transport Canada AME 'E' License holder;
- Previous general aviation experience an asset;
- Q400 experience preferred.

If you are qualified and interested in this position, please submit your resume to comework@conair.ca by May 31, 2019 with **Licensed Avionics Technician** in the subject line.
