

Q400MR MULTI-ROLE
ONE AIRCRAFT – MANY MISSIONS

THE WORLD'S NEWEST, MOST VERSATILE, MULTI-ROLE AIRTANKER & EMERGENCY RESPONSE SOLUTION.

With its capacity, speed, performance and safety, the Conair Q400MR Airtanker is ideally suited to emergency response roles. Capable of quick reconfiguration for use in airtanker, cargo, passenger, combi-transport or medical evacuation missions.

CARGO

AIRCRAFT FEATURES

- Transport of 64 passengers or 9t of cargo or six stretchers and associated medical equipment with a clinical team
- Combined 'combi' passenger/cargo interior will accommodate up to 19 passengers, along with freight
- Conair's Advanced Retardant Delivery System (RDS) has a tank capacity of 2,642 US Gallons (10,000 liters)

AIRCRAFT PERFORMANCE*

Loaded Cruise Speed	360 knots KTAS
Endurance	3.0 hours
Range, tank empty	1600 nautical miles
Range, fully loaded	900 nautical miles
Take-off run loaded	4,580 feet, 1,396 meters*
	(*at sea level, ISA conditions, and at MTOW and HGW)

AIRCRAFT SPECIFICATIONS*

Engines	Pratt and Whitney Canada - PW 150A
Propellers	Dowty R408, 6 bladed, composite, fully reversible
Maximum take-off weight	68,200 lbs (30,935 kgs)
Useful load (passenger and cargo)	24,000 lbs (10,886 kgs)
Useful load (tank installed)	22,000 lbs (10,000 kgs)
Wingspan	93 feet, 3 inches (28.42 meters)
Length	107 feet, 9 inches (32.84 meters)
Height	27 feet, 4 inches (8.36 meters)

*Detail specifications and performance subject to confirmation

The versatile design allows for conversion from airtanker to any of the passenger, cargo, combi and medevac configurations in less than three (3) hours (with tank on or off).
