

NOTICE OF POSITION AVAILABLE

Permanent Full-Time Senior Paint Shop Technician

Conair is Canada's most experienced specialty aircraft operations provider, delivering a comprehensive range of aerial fire control products and services to a variety of national and international customers and partners. Our long-standing reputation for providing service excellence makes us an industry leader.

People define Conair and we currently have an opening for a full time permanent Senior Paint Shop Technician position.

Reporting to the Paint Shop Lead Hand as a Senior Paint Shop Technician at Conair, operating under minimal supervision, you are responsible for all aspects of the paint process including paint finishing. You will be required to perform any or all functions from preparation of the aircraft for painting processes up to and including the final painting and inspection of aircraft surfaces, aircraft parts, components and manufactured products.

As a senior technician a high caliber of technical ability, quality, productivity and attention to safety is expected in this role.

In this role your duties will include the following:

- Prepare and remove paint on aircraft surfaces, parts, components and assemblies.
- Clean, acid etch and prime aircraft parts, components, assemblies and manufactured products.
- Layout custom designs and paint aircraft surfaces, parts, components, assemblies and manufactured products.
- Maintain tools and equipment used.
- Assist less experienced staff with learning new skills, procedures and safety practices.
- Assist in creating a positive work environment by communicating Conair's philosophy and objectives to less experienced staff or contractors.
- Complete tasks safely using appropriate protective equipment and measures including maintaining a safe work area.
- Act as interim lead hand as required.
- Other related duties as required.

We are looking for someone with:

- Knowledge of WHMIS requirements, hazards and safety practices relating to paint crew activities and supervisor responsibilities for team member health and safety.
- Advanced knowledge of paints, primers, paint removers and other chemicals and products pertaining to the trade.
- Understanding of aircraft parts and components and their compatibility with paint products and chemicals.
- Knowledge of and ability to use and maintain the tools and equipment required for the trade.
- Ability to interpret technical data and product manufacturer information.
- Ability to work independently with minimum supervision.
- Ability to accurately layout and mask paint designs, lettering etc.
- Ability to clearly communicate methods, procedures, standards and quality requirements to employees with less skills and/or experience.
- A team player with the ability to deal with people in a polite and courteous manner.
- Ability to read, write and communicate effectively in English.

Training/Education:

- Completion of grade 12 or equivalent.
- Formal training in aircraft refinishing (or equivalent training and experience).
- Minimum 10 years' aircraft refinishing experience.

NOTICE OF POSITION AVAILABLE
